

COP 1000, Principles of Computer Programming

Designing the programs using flowcharts:

Flowchart assignment (10 x 5 = 50)

Please review the “Flowchart lecture” under Week 3.

Create the flow charts for the programs that you wrote for Assignment 4 and 5.

Rubric for flowchart:

Categories	Points
User of proper symbols	5
Use of proper logic (arrows)	5
Total	10

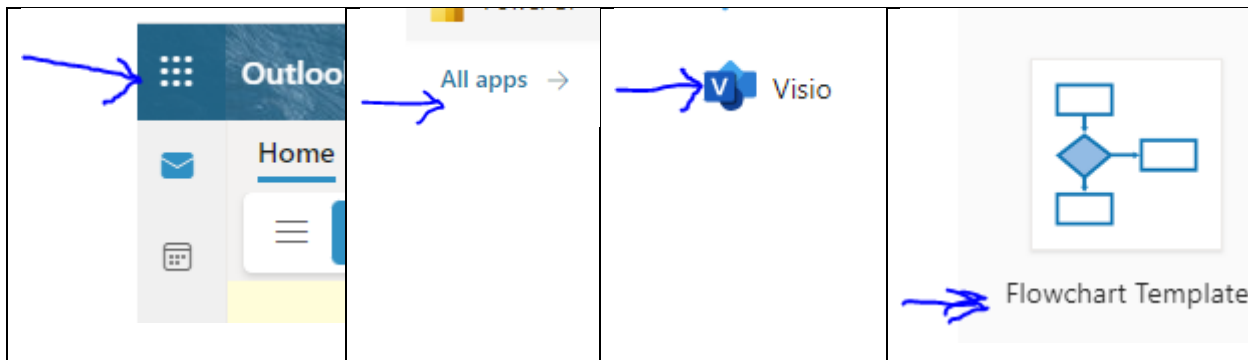

Use Visio to create your flowcharts.

If you already have installed Visio, you can use it. If you don't have Visio follow the following steps.

Log in your Falcon mail.

Click on the waffle, if you don't see the Visio icon, then click on All apps, choose Visio and then choose Basic flow chart template.

Save your file as a Visio file or export it as a .pdf file.

Purpose: Comprehension of design in programming using flowcharts.
